

IFS SMARTFREIGHT® ENTERPRISE

IFS SmartFreight® Enterprise (SFE) - SQL Enterprise Solution

Locally installed networkable Transport Management System (TMS) utilising SQL database for high volume shippers of freight. Full suite of modules available which can be easily configured to suit clients specific needs. Seamless integration to ERP/WMS solutions with option for a National database to provide visibility of remote warehouses.

Product Fit

IFS SmartFreight® Enterprise (SFE) is IFS's premier product, aimed specifically, at high volume domestic shippers of freight that require an SQL database to store and report on high volumes of freight shipped.

Being locally installed and utilising full SQL or SQL Express, IFS SmartFreight® Enterprise is ideally suited to multiple domestic warehouse operations. Infrastructure lends itself to National Database as repository for organisations entire freight profile for centralised customer service and reporting purposes.

In addition, due to its SQL structure Enterprise has facility to receive, store and report on carrier tracking data to provide real-time delivery status and DIFOT (Delivered In Full and In On Time) Reporting.

Key Attributes

- ◆ Compliant with domestic carriers in Australia, New Zealand, UK, Ireland and mainland Europe with new countries being added regularly.
- ◆ Thermal label formats for all carriers and generic consignment notes as standard.
- ◆ Route optimisation deployed to ensure the most cost or service effective local carrier is selected for the type of goods being shipped.
- ◆ Electronic data sent to carriers with zero formatting / development required by shipper.
- ◆ Over 100 standard freight reports plus in-built Crystal Report Writer as standard
- ◆ End-to-End real-time tracking of consignments from pick up to delivery to customer with carrier DIFOT Dashboard to monitor performance and improve customer service.
- ◆ Automatic reconciliation of transport providers electronic invoices
- ◆ For full list of Modules available within Enterprise see Modules Insert
