

IFS SMARTFREIGHT® TRACKER4TRANSPORT

IFS SmartFreight® Tracker4Transport (SFT4T) – Parcel Tracking App with receiver name for proof of delivery purposes. Suitable for both transport companies and shippers of freight operating their own fleet. Complimented by branded tracking Web Portal to provide seamless real-time connectivity with your customer service team and most importantly your customers.

Product Fit

IFS SmartFreight® **Tracker4Transport (SFT4T)** is IFS's answer to providing your customers with that all important 'Experience' that promotes repeat business. In the new online supply chain, the need from customers to have visibility of their orders at all times has become a necessary standard that all companies need to comply with. Whether a satchel, carton, skid or pallet, if fleet drivers have access to a mobile phone, IFS can provide real-time visibility via your own branded Web Portal. Accessed by a URL embedded in your branded Advance Shipping Notice (ASN) email sent directly to the receiver customers by IFS or via accessed an Android / iPhone App. Utilising the latest in QR barcode technology, IFS SmartFreight® **Tracker4Transport** provides world leading tracking capability without the need for costly investment in hardware or technology infrastructure.

Key Attributes

- Complete mobility for your fleet drivers.
- Single branded Web Portal to track all shipments for your customer service staff and customers.
